Mike Burns - 2/12  
 Jon Sarver - 2/14  
 Jim Burchett - 2/23

**To show respect for our guest speakers, please turn off cell phones and refrain from conversations during the program - Thank you**

### Today's Program

## Paula Fanelly Handwriting Analysis (Graphology)

Handwriting analysis, or graphology, is the science involved in producing a personality profile of the writer by examining the characteristics, traits and strokes of an individual's handwriting. It may seem impossible, but a trained graphologist can gather an astonishing amount of information about the writer just from analyzing their handwriting. Besides creating a complete personality profile, many other things are revealed in your handwriting, such as health issues, morality, past experiences, hidden talents, mental problems-- to name just a few.

Your brain guides your hand. Everything put on paper is a result of a two-way circuit between your brain and the motor reflex muscles of your hand. Thus, your handwriting becomes a polygraph or oscilloscope read-out of your "complete self." To you, it's just handwriting, but to a handwriting analyst, it paints a picture of the person "behind the pen."

### Upcoming Programs:

March 3 - Ruth Goode, United Way of Forsyth County  
 March 10—Mark Mackie, Quarter Midget Racing

### News & Information

Birdhouse Kit Building will be on Saturday, March 6th, 9:30am at Prism Automotive.

Registration forms are available for the International Convention this June, in Las Vegas. Please see Dan White for more information.
