Today's Program

Mark Mackie Quarter Midget Racing

Quarter Midget Racing is a family oriented sport for children ages 5 to 16. Children race in Quarter Midget cars that are a scaled-down (approximately 1/4 scale) version of an actual midget-racer on oval tracks that are approximately 1/20th of a mile. The sport focuses on family participation, safety, improvement of mechanical and driving skills, sportsmanship, and competitive fun.

Quarter Midget Racing was started to develop sportsmanship in the children while also providing a family oriented racing activity. In recognition of the drivers, trophies are awarded at Regional, State, and National events.

Upcoming Programs:

March 15 - Board of Directors meeting at City Hall, 6:30pm
March 17 - Business Meeting
March 25 - Bill Stephens, Lake Lanier Water Rights Issues
Evening Meeting, 6:00pm
